## Cross-cutting related to Gender

### Camp on Beti Padhao, Beti Bachao

**Date:** 03<sup>rd</sup> January 2018

**Organized by:** G.G.C.P. Farrukhnagar

**Location:** Mushedpur, Farrukhnagar, Gurugram

#### **Introduction:**

The "Beti Padhao, Beti Bachao" campaign stands as a beacon of hope in India's journey towards gender equality and women's empowerment. At its core, this initiative embodies a dual mandate: to promote education for girls (Beti Padhao) and to safeguard their lives (Beti Bachao). In a nation where gender disparities persist in various facets of life, this campaign emerges as a vital step towards rectifying historical injustices and fostering a more inclusive society.

By prioritizing the education of girls, "Beti Padhao" seeks to break the cycle of inequality and discrimination that has long hindered their access to learning opportunities. Education is not merely a tool for academic advancement but a catalyst for social and economic transformation, empowering girls to assert their rights, pursue their aspirations, and contribute meaningfully to their communities. Simultaneously, the "Beti Bachao" aspect addresses the pressing issue of female infanticide, gender-based violence, and neglect that threaten the lives and well-being of millions of girls across the country. Through awareness campaigns, legal reforms, and grassroots interventions, efforts are directed towards creating a protective environment where girls can thrive, free from fear and exploitation. In this introduction, we embark on a journey to explore the multifaceted dimensions of the "Beti Padhao, Beti Bachao" campaign, examining its significance, challenges, and impact on the lives of girls and the broader societal landscape of India.

## Outcome:

The "Beti Padhao, Beti Bachao" campaign has yielded significant outcomes, marking a paradigm shift in societal attitudes towards gender equality and the welfare of girls in India. Through targeted interventions and holistic strategies, the campaign has made notable progress in promoting the education of girls and safeguarding their lives. One of the primary outcomes of the campaign is the increased enrollment and retention of girls in

schools. By raising awareness about the importance of girls' education and addressing barriers such as social norms, economic constraints, and lack of infrastructure, the campaign has contributed to a more conducive environment for girls to pursue learning opportunities.

Moreover, the "Beti Bachao" component of the campaign has led to heightened awareness and action against practices like female infanticide, gender-based violence, and child marriage. Through advocacy, community mobilization, and legal reforms, efforts have been made to protect the rights and dignity of girls, ensuring they have the chance to grow up in a safe and nurturing environment. Overall, the "Beti Padhao, Beti Bachao" campaign has catalyzed positive changes at both the individual and societal levels, empowering girls to realize their full potential and fostering a more equitable and inclusive society for future generations. However, challenges remain, and sustained efforts are needed to address deep-rooted gender disparities and ensure the continued progress of this transformative initiative.

## Cross-cutting related to Environment

**Date:** 27<sup>th</sup> March 2019

**Organized by:** G.G.C.P. Farrukhnagar

**Location:** Campus Outside Road

### Introduction:

Plantation Drive a rallying call for greener, healthier futures. Today, we gather with shovels in hand and determination in our hearts to embark on a journey of growth, sustainability, and reforestation. In this introductory session, we stand at the precipice of opportunity, ready to make a tangible impact on our environment. Our mission is clear: to replenish our planet's green cover, one sapling at a time, and to forge a path towards a more sustainable and resilient ecosystem. As we delve into this endeavor, let us remember the profound significance of trees in our lives. They are not merely silent spectators of our existence but vital contributors to our well-being, purifying the air we breathe, stabilizing soil, and providing habitat for countless species of flora and fauna.

Through this Plantation Drive, we aim to harness the power of collective action to combat deforestation, mitigate climate change, and preserve biodiversity. Each tree we plant today is a testament to our commitment to safeguarding the health and vitality of our planet for future generations. So, let us roll up our sleeves, dig deep into the earth, and sow the seeds of change. Together, let us cultivate a greener, more sustainable world one tree, one community, one planet at a time.

## **Outcome:**

The Plantation Drive culminated in a remarkable success, leaving a lasting impact on both the environment and the community involved. Through collective efforts and dedication, a significant number of trees were planted, heralding a positive change in the landscape and fostering a renewed sense of environmental stewardship. One of the primary outcomes of the drive was the restoration of green cover in areas affected by deforestation or environmental degradation. By planting trees, participants contributed to improving air quality, reducing soil erosion, and enhancing biodiversity, thereby creating healthier ecosystems for present and future generations.

Moreover, the drive served as a catalyst for community engagement and empowerment. Participants, ranging from individuals to organizations, came together with a shared vision of environmental conservation, fostering a sense of unity and purpose. Through collaboration and cooperation, they demonstrated the transformative power of collective action in addressing pressing environmental challenges. Additionally, the drive sparked awareness and education about the importance of trees and environmental conservation. Participants learned about the ecological benefits of trees, the role they play in mitigating climate change, and the significance of sustainable land management practices. This newfound knowledge empowered individuals to become advocates for environmental protection in their communities. In essence, the Plantation Drive not only contributed to the physical greening of the environment but also inspired a deeper appreciation for nature and a sense of responsibility towards its preservation. By planting trees today, participants have sown the seeds of a brighter, more sustainable future for generations to come.
