## Report on Awareness Programme on COVID 19 Vaccination

**Date:** 5<sup>th</sup> May 2021

**Organized by:** G.G.C.P. Farrukhnagar

**Location:** Tajnagar, Farrukhnagar, Gurugram

### Introduction:

Gurugram Global College of Pharmacy (GGCP) organized an “Awareness Programme on COVID-19 Vaccination” on 5th February 2020. The event aimed to educate participants about the significance of COVID-19 vaccination, the benefits of getting vaccinated, and to address any concerns or misconceptions about the vaccines. The programme featured informative sessions, and an interactive Q&A session, providing attendees with accurate and up-to-date information on COVID-19 vaccination.

### **Objectives**

The key objectives of the programme were:

1. To provide accurate information about the development, safety, and efficacy of COVID-19 vaccines.
2. To explain the importance of vaccination in controlling the spread of COVID-19 and achieving herd immunity.

3. To address common concerns, myths, and misconceptions about COVID-19 vaccines.
4. To encourage the college community to participate in the vaccination drive and promote public health.

**Outcome:**

- Participants received accurate information about the development, safety, and efficacy of COVID-19 vaccines.
- Participants understood the importance of vaccination in controlling the spread of COVID-19 and achieving herd immunity.
- Participants had common concerns, myths, and misconceptions about COVID-19 vaccines addressed.
- Participants were encouraged to participate in the vaccination drive and promote public health within the college community.

### Medicine Donation Drive

**Date:** 3<sup>rd</sup> March 2021

**Organized by:** G.G.C.P, Farrukhnagar

**Location:** Farrukhnagar, Haryana

#### Introduction:

A medicine donation drive is a crucial initiative aimed at addressing gaps in access to essential medications for underserved populations. In many communities, individuals face barriers to obtaining necessary medicines due to financial constraints, lack of insurance, or limited availability in local pharmacies. Medicine donation drives seek to bridge this gap by collecting unused, unopened medications from generous donors and redistributing them to those in need through local healthcare providers, clinics, and charitable organizations. These drives play a significant role in improving public health by providing vital medications to individuals who may otherwise go without them. They also help reduce the environmental impact of pharmaceutical waste by ensuring that surplus or unneeded medications are used effectively rather than being discarded. Organizing a medicine donation drive involves coordinating collection points, educating the community about acceptable donations, and ensuring the safe handling and distribution of medicines, medicine donation drives not only address immediate healthcare needs but also foster a spirit of community and shared responsibility. By participating in or supporting a medicine donation drive, individuals and organizations contribute to a collective effort to enhance health equity and improve the well-being of those facing medical challenges.

**Outcome:**

1. Medicine donation drives provide essential medications to individuals who cannot afford them, enhancing their access to necessary healthcare and improving overall well-being.
2. These drives help reduce pharmaceutical waste by repurposing unused, unopened medications, thus supporting environmental sustainability and responsible disposal practices.
