Date: 02.08.2019

NOTICE

Gurugram Global College of Pharmacy is going to organize a seminar on "**Introduction to Intellectual Property Rights (IPR)**" will be held on 9th August 2019. This seminar aims to provide you with a comprehensive understanding of the significance and implications of Intellectual Property Rights in the pharmaceutical industry.

Date: 9th August 2019

Time: 11:00 AM Onwards

Venue: Swami Vivekanand Auditorium, C2 Block

The seminar will cover various aspects of Intellectual Property Rights, including patents, trademarks, copyrights, and trade secrets, with a specific focus on their relevance to the pharmacy field.

Workshops/Seminars/Conferences

"Introduction to IPR"

Date: 09 August 2019

Timing: 11.00 AM to 1.00 PM

Duration: 2 Hours

Venue: Swami Vivekanand Auditorium, C2 Block

Program & Semester: B. Pharmacy

Certificates will be awarded on successful completion of the seminar.

Speaker: Prof. (Dr.) Indira Raheja
(Principal, GGCP)

Report on

IPR- A Seminar on Intellectual Property Rights

Date- 9th August 2019

Time- 11:00 am to 1:00 pm

Venue- Swami Vivekananda Auditorium, C-2 Block

Total no. of participants- 81

A seminar named IPR- A Seminar on Intellectual Property Rights was organized by Gurugram Global College of Pharmacy (GGCP) on 9th August 2019. The Speaker of the seminar was Prof. (Dr.) Indira Raheja, principal Gurugram Global College of Pharmacy.

The coordinator of the event was Ms. Manisha Singh.

The seminar on Intellectual Property Rights (IPR) aimed to equip participants with a comprehensive understanding of the principles, significance, and practical applications of intellectual property across various domains. Throughout the seminar, attendees delved into the intricacies of intellectual property rights, including patents, trademarks, copyrights, and trade secrets. This exploration was grounded in an examination of the legal frameworks and international conventions governing intellectual property protection, facilitating a deeper understanding of its legal dimensions and global implications.

Learning objectives:

1. Understand the fundamental concepts and types of Intellectual Property Rights (IPR), including patents, trademarks, copyrights, and trade secrets.
2. Familiarize oneself with the legal frameworks and international regulations governing IPR protection and enforcement.
3. Develop strategies for acquiring, managing, and protecting intellectual property assets effectively.
4. Explore the ethical and societal implications of IPR, including issues of access to knowledge and cultural appropriation.

5. Identify and analyze emerging trends and challenges in the field of intellectual property, and adapt strategies accordingly.

Seminar Outcomes (SOs):

1. Gained a comprehensive understanding of Intellectual Property Rights (IPR).
2. Achieved proficiency in legal compliance and enforcement.
3. Developed skills in strategic management of intellectual property assets.
4. Increased awareness of ethical considerations and social responsibility.
5. Adapted to emerging trends and challenges.

"Mastering Pharma IP Essentials for Success"

Date: 23 May 2019

Timing: 11:00 AM to 1:00 PM

Duration: 2 Hours

Venue: Swami Vivekanand Auditorium, C2 Block

Program: B. Pharmacy

Certificates will be awarded on successful completion of the seminar.

Speaker: Ms. Sweety
(Assistant Professor, GGCP)

Report

“Pharma IP Essentials for Success” was an informative seminar tailored for pharmacy students from Gurugram Global College of Pharmacy, held at the Swami Vivekanand Auditorium. The session was led by Ms. Sweety, a specialist in Intellectual Property (IP) within the pharmaceutical sector. A total 60 students attended the seminar. The seminar aimed to provide students with essential knowledge about the role of IP in the pharmaceutical industry, focusing on key concepts and practical strategies for leveraging IP to achieve success in their future careers.

Objective:

1. Introduce Key IP Concepts: Familiarize students with fundamental concepts of Intellectual Property, including patents, trademarks, copyrights, and trade secrets, and explain their importance in the pharmaceutical field.
2. Clarify the Impact of IP on Pharma Success: Demonstrate how effective management and protection of IP can influence the success of pharmaceutical innovations, including how IP rights contribute to competitive advantage and market positioning.
3. Provide Practical IP Strategies: Equip students with practical strategies for navigating the IP landscape, including how to secure IP rights, handle IP-related challenges, and utilize IP assets effectively in their professional roles.
4. Enhance Career Readiness: Prepare students for successful careers in the pharmaceutical industry by providing them with essential IP knowledge and skills, enabling them to contribute to innovation, compliance, and strategic management of intellectual property.

Learning Outcome:

1. Understanding of IP Fundamentals: Students gained a solid grasp of fundamental Intellectual Property concepts, including patents, trademarks, copyrights, and trade secrets, and their relevance to the pharmaceutical industry.
2. Insight into IP's Role in Pharma Success: Attendees learned how effective IP management and protection were crucial for the success of pharmaceutical innovations and how IP rights could impact competitive advantage and market dynamics.

3. **Practical IP Strategies:** Students acquired practical skills for securing and managing IP rights, addressing IP-related challenges, and utilizing IP assets to support innovation and business goals within the pharmaceutical sector.

4. **Enhanced Career Preparedness:** The seminar better equipped students for future careers by providing essential knowledge and strategies for navigating the IP landscape, preparing them to contribute effectively to pharmaceutical innovation and intellectual property management.

"Preserving Pharma Innovations: A Deep Dive into IPR"

Date: 28 March 2019

Timing: 10:30 AM to 12:30 PM

Duration: 2 Hours

Venue: Swami Vivekanand Auditorium C2 Block

Program: B. Pharmacy

Certificates will be awarded on successful completion of the seminar.

Speaker: Dr. Sushila Rathee
(Associate Professor, GGCP)

Report

“Preserving Pharma Innovations: A Deep Dive into IPR” was a specialized seminar aimed at pharmacy students from Gurugram Global College of Pharmacy. Held on March 28, 2019, at the Swami Vivekanand Auditorium, the event featured Dr. Sushila Rathee, an expert in Intellectual Property Rights (IPR). Total 42 students attended the seminar. The seminar offered a comprehensive exploration of how IPR mechanisms protected and supported innovations in the pharmaceutical industry, focusing on the strategic importance of patents, trademarks, and copyrights.

Objective:

1. Provide students with a thorough understanding of key IPR tools, including patents, trademarks, and copyrights, and their specific relevance to preserving and enhancing pharmaceutical innovations.
2. Offer insights into the patent application process, including how to secure patent protection for new drug discoveries and the impact of patents on the pharmaceutical market.
3. Explore the legal and ethical dimensions of IPR in the pharmaceutical sector, such as patent disputes, the balance between innovation and competition, and the role of generics.
4. Prepare students for future roles in the pharmaceutical industry by equipping them with practical knowledge on navigating IPR challenges and leveraging IPR strategies to foster innovation and success.

Learning Outcome:

1. **In-depth Knowledge of IPR:** Students gained a solid understanding of IPR mechanisms, especially patents, trademarks, and copyrights, and their role in protecting pharmaceutical innovations.
2. **Expertise in Patent Processes:** Attendees acquired practical insights into the patenting process, including securing patents and understanding patentability criteria.

3. **Awareness of Legal and Ethical Challenges:** Students understood the legal and ethical issues in IPR, such as patent disputes and the impact of generics.
4. **Preparedness for Industry Roles:** The seminar equipped students with the knowledge to handle IPR challenges and contribute to the pharmaceutical industry.

NOTICE

Gurugram Global College of Pharmacy is going to organize a seminar on "**Pillars of Protection: Understanding IPR in the Pharma Sector**" will be held on 14 March 2019. The aim of the seminar is to educate and inform participants about the various aspects of intellectual property, its importance, and how to protect and manage it in the pharmaceutical industry.

Date: 14 March 2019

Time: 2:00 PM Onwards

Venue: Swami Vivekanand Auditorium C2 Block

The seminar will empower participants with the knowledge and tools necessary to navigate the complex field of intellectual property, ultimately helping to safeguard their innovations and creations. Experts in the field will discuss the role and importance of IP in various industries such as technology, pharmaceuticals and manufacturing. Address ethical considerations and challenges related to intellectual property, such as balancing protection with public access and the impact on developing countries.

Duration: 1.5 Hours

Venue: Swami Vivekanand Auditorium C2 Block

Program: B. Pharmacy

Certificates will be awarded on successful completion of the seminar.

Speaker: Prof. (Dr.) Indira Raheja
(Principal, GGCP)

Report

"Pillars of Protection: Understanding IPR in the Pharma Sector" was an educational seminar aimed at pharmacy students from Gurugram Global College of Pharmacy. Held at the Swami Vivekanand Auditorium, the event focused on the critical role that Intellectual Property Rights (IPR) played in the pharmaceutical industry. A total 68 students attended the seminar. The seminar delved into how IPR influenced drug development, innovation, and market dynamics, covering various aspects such as patents, trademarks, and copyrights relevant to the pharma sector.

Objective:

Educate Students on IPR Fundamentals: Provide a comprehensive understanding of the basic principles of Intellectual Property Rights and their specific application in the pharmaceutical industry. Highlight the Importance of Patents in Pharma: Explain how patents protect pharmaceutical innovations, the process of patent filing, and the implications of patent protection for drug development and commercialization.

1. Explore Other IP Mechanisms: Discuss the role of trademarks, copyrights, and trade secrets in protecting pharmaceutical products and brands.
2. Understand Legal and Ethical Considerations: Address the legal challenges and ethical issues associated with IPR in the pharma sector, including issues related to generic drugs and patent disputes.
3. Encourage Innovation and Compliance: Foster an appreciation for the balance between protecting intellectual property and promoting innovation, ensuring students understand how to comply with IPR regulations while contributing to advancements in the field.

Overall, the seminar aims to provide pharmacy students with a robust understanding of IPR's role in the pharmaceutical industry, enhancing their ability to navigate and contribute to this crucial aspect of the field.

Learning Outcome:

1. **Comprehensive Knowledge of IPR:** Students acquired a detailed understanding of various Intellectual Property Rights, including patents, trademarks, copyrights, and trade secrets, and their specific relevance to the pharmaceutical industry.
2. **Insight into Patent Processes:** Attendees gained practical knowledge about the patent application process, criteria for patentability, and the strategic role patents played in protecting pharmaceutical innovations and facilitating drug commercialization.
3. **Awareness of Legal and Ethical Issues:** Participants identified and understood the legal and ethical challenges related to IPR, such as patent disputes and the impact of generics on market dynamics.
4. **Career Preparedness:** Students were better equipped to handle IPR-related aspects in their future careers within the pharmaceutical sector, whether in research, regulatory affairs, or intellectual property management.

"Qualitative Data Analysis"

Date: 19.12.2018

Timing: 10:00 AM to 1:00 PM

Duration: 3 Hours

Venue: Swami Vivekanand Auditorium, C2 Block

Program: Pharmacy Faculty and Students

Certificates will be awarded on successful completion of the seminar.

Speaker: Dr. Vaishali Dixit
(Associate Professor, GITM)

Report

Qualitative Data Analysis, specifically designed for the pharmacy background audience of Gurugram Global College of Pharmacy, was held at the Swami Vivekanand Auditorium.

Location: Swami Vivekanand Auditorium, Gurugram Global College of Pharmacy

Date & Time: December 19, 2018, at 10:00 am

Duration: 3 hours

No. of Participants: 61

Speaker: Dr. Vaishali Dixit (GITM)

Objective:

1. The primary objective of this seminar is to provide pharmacy audience with a comprehensive understanding of qualitative data analysis methods, enhancing their ability to conduct, analyze, and interpret qualitative research in the context of pharmacy practice. The seminar aims to:
2. Equip participants with practical skills in analyzing qualitative data using various coding and thematic analysis approaches.
3. Demonstrate how to apply qualitative research methods to pharmacy related topics and case studies to extract meaningful insights and inform practice.
4. Emphasize best practices and strategies for maintaining the rigor and credibility of qualitative research, including validity and reliability considerations.

Learning Outcome:

1. Gained a thorough understanding of qualitative research methodologies, including key concepts, data collection techniques, and the role of qualitative data in pharmacy research.
2. Learned to apply various qualitative data analysis methods, such as thematic analysis, coding, and narrative analysis, to systematically interpret and organize data.
3. Acquired skills to identify patterns, themes, and insights from qualitative data, and used these findings to support evidence-based conclusions and recommendations.

4. Understood and implemented strategies to ensure the validity, reliability, and credibility of qualitative research, including techniques for maintaining methodological rigor.

5. Effectively applied qualitative data analysis techniques to pharmacy-related research questions and case studies, enhancing the ability to derive actionable insights and inform practice.

Quantitative Research Methods Workshop designed for the Pharmacy field background audience of Gurugram Global College of Pharmacy, to be held at the Swami Vivekanand Auditorium

Date & Time: 12 November 2018, 11:00 am Onwards

Duration: 2 hrs

No. of Participants: 45

Speaker: Dr Richa Gupta (GITM)

Objective:

The primary objective of the workshop is to equip the pharmacy audience with advanced knowledge and practical skills in quantitative research methods. This will enable them to design, conduct, and analyze research studies with greater proficiency and rigor. The workshop aims to:

1. Provide a comprehensive understanding of quantitative research methodologies, including fundamental concepts, various research designs, and statistical analysis techniques.
2. Guide participants in creating robust research proposals, selecting appropriate methods, and determining sample sizes to ensure valid and reliable results.
3. Teach effective use of statistical tools and software to analyze research data, interpret findings, and make evidence-based conclusions.
4. Emphasize best practices and ethical considerations in quantitative research to uphold the integrity and quality of research conducted.
5. Offer hands-on experience with real data sets and case studies to bridge the gap between theory and practice, allowing pharmacy members to apply what they learn to their own research projects.

Learning Outcomes

1. **Comprehensive Understanding of Quantitative Research Methodologies:** Participants acquired a thorough understanding of quantitative research methodologies, including fundamental concepts, various research designs, and statistical analysis techniques.
2. **Guidance in Creating Research Proposals:** Participants were guided in creating robust research proposals, selecting appropriate methods, and determining sample sizes to ensure valid and reliable results.
3. **Proficiency in Statistical Tools and Software:** Attendees learned to effectively use statistical tools and software to analyze research data, interpret findings, and make evidence-based conclusions.
4. **Emphasis on Best Practices and Ethical Considerations:** Participants were taught best practices and ethical considerations in quantitative research, ensuring the integrity and quality of the research conducted.
5. **Hands-on Experience with Real Data Sets:** Participants gained hands-on experience with real data sets and case studies, bridging the gap between theory and practice and enabling them to apply their knowledge to their own research projects.
